

# C.L.E.A.R.

## Committee on Legislative Education and Action for Religious liberty

*"...Proclaim liberty throughout all the land..."*

*-Leviticus 25:10*

A Ministry of the Missouri Association of Christian Schools

# Our Purpose

1.

To clearly educate Legislators on matters of religious liberty, explaining that religious liberty is more than freedom to worship. It must include freedom to obey and act on matters of religious conscience which includes the rights of parents to provide a Christian education for their children.

2.

To clearly educate Legislators concerning matters of church state relationship. i.e., church and school ministries cannot be licensed.

3.

To clearly educate Legislators regarding the need to protect schools in our state from federal regulation that would violate our freedoms, families, schools, and churches.

4.

To clearly educate Legislators in the area of educational choices by making more opportunities available to parents such as assisting with tax credits for those who choose private education.

# Our Goal

To enlist one committed Christian in each of our 163 state representative and 34 senatorial districts who would agree to personally contact their representative and senator about cooperating with us in our educational efforts at the state level. If you are interested in learning more please contact me.

It is very important that those who would serve with us on the C.L.E.A.R. committee understand and agree with the spirit of the committee leadership.

1. C.L.E.A.R. is not a political action committee. We do not raise money. We do not support or oppose candidates.
2. Our goal is education. We do not use threats of political opposition to sway our legislators.
3. When representing the C.L.E.A.R. ministry we stay focused on the issues of our stated purpose.
4. We seek to minister to our legislators through prayer and encouragement during our meetings.
5. Committee members agree to follow the guidelines and support the position outlined by the committee.
6. Committee members agree to always act and speak with their Christian testimony in mind.
7. Committee members agree to personally visit their representative/senator at least once each year to provide CLEAR materials.
